VOTING MACHINES

All voting in Florida is done using paper ballots. We only use machines that are certified by the Florida Department of State. Before each election we test all the equipment to ensure it is properly counting votes. Then we publicly audit the results to ensure they are correct.

HOW TO VOTE

After the ballot is marked, the voter feeds paper ballot into the tabulator which reads and tabulates the ballot. Below is an example of how to correctly mark the ballot.

CLOSED PRIMARY

- Florida is a closed primary state.
- In the Primary Election, you will be able to vote only for the candidates whose party affiliation is the same as yours and for non-partisan races. Non-partisan voters vote on issues and non-partisan candidates.
- If a partisan race will be decided in the primary, everyone will vote in that race. This is known as a "Universal Primary Contest."
